INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Capital Area Finance Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities which include each of the individual programs, the unrestricted fund, and the 2014 combined of the Capital Area Finance Authority (the Authority) (formerly known as East Baton Rouge Mortgage Finance Authority) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Capital Area Finance Authority as of December 31, 2014, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the Capital Area Finance Authority's December 31, 2013 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated June 19, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2013 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other - Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages 4 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued a report dated June 10, 2015 on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Capital Area Finance Authority's internal control over financial reporting and compliance.

Respectfully submitted,

MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)

The Management's Discussion and Analysis ("MD&A") of the Capital Area Finance Authority's (the "Authority") (formerly known as the East Baton Rouge Mortgage Finance Authority) financial performance presents a narrative overview and analysis of the Authority's financial activities for the year ended December 31, 2014 as well as commentary of general market trends, market conditions and the Authority's mortgage loan origination and mortgage loan payoff history. This document focuses on the year ended December 31, 2014 activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this MD&A in conjunction with the Authority's audited financial statements for the year ended December 31, 2014 presented beginning on page 13.

The Authority's basic financial statements include the totals of the similar accounts of each of the Authority's various bond programs as well as the Authority's Unrestricted Fund. Since the assets of each individual bond series are only pledged by the respective bond resolution and trust indenture to only the respective individual bond series, the totaling of the accounts, including the assets therein, is for convenience purposes only and does not indicate that the combined assets are available in any manner other than as provided for in the respective resolutions and indentures relating to each separate bond series. However, for the purpose of this analysis, we will refer to the combined totals in order to assist the reader in understanding the overall financial condition of the Authority.

A COMMENTARY OF GENERAL ECONOMIC TRENDS, INTEREST RATE MARKET CONDITIONS, AS WELL AS AN OVERVIEW OF FINANCIAL STATEMENTS, AN ANALYSIS OF THE AUTHORITY'S ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2014, CURRENT ECONOMIC FACTORS, THE AUTHORITY'S 2015 BUDGET AND THE AUTHORITY'S MORTGAGE LENDING PROGRAMS ARE PRESENTED OVER THE FOLLOWING PAGES

- Beginning in mid-September 2007 the Federal Reserve Bank (the "Fed"), in response to the turmoil in the "residential sub-prime" mortgage market, reduced the Fed funds target rate with a cut in its Fed funds target rate from 5.00% to 4.75% followed with two (2) more cuts at its subsequent meetings in 2007 and eight (8) more cuts in 2008 to a level of only 0.25%, (an all-time historical low) on December 16, 2008, which historical low rate has continued for approximately the last 6 ½ years, an unprecedented length of time without a change to the Fed funds target rate. The Fed funds rate remains at a target rate of 0.25% as of June 1, 2015.

- The financial markets faced several crises beginning in early March, 2008 when the fifth (5th) largest investment banking firm of Bear Stearns & Co. was bailed out from insolvency and almost certain bankruptcy through a Fed assisted buyout by JP Morgan Chase & Co.

- Financial markets deteriorated further in 2008 and reached a crisis point the first two (2) weeks of September 2008 with the takeover by the federal government of both the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corp. ("Freddie Mac") by placing both government sponsored enterprises ("GSE's") into conservatorship. Lehman Brothers & Co., then the world's fourth (4th) largest investment banking firm filed for bankruptcy protection and the Fed led a bailout of American International Group ("AIG"), the world's largest insurance company. Both Fannie Mae and Freddie Mac currently remain in conservatorship by the United States Government.

- The last quarter of 2008 saw unprecedented declines in the equity markets not experienced since the Great Depression. During which time the Fed pumped billions of dollars in the US banking system in order to provide sufficient liquidity to the financial markets.

- In 2008 the subprime residential mortgage loan crisis turned into a panic as most all mortgage related assets not guaranteed by the GSE's suffered massive mark to market losses. The credit markets locked up and more or less stopped functioning.

- A severe banking crisis ensued. Investment and commercial banks, domestically as well as internationally, suffered very significant unrealized losses during a period where the bid side of the credit markets for all practical purposes disappeared. As a result of mark to market accounting rules, many commercial and investment banks teetered on the verge of insolvency from both substantial realized losses as well as unrealized losses in quarter after quarter earnings reports caused by the required write-off of unrealized losses consistent with generally accepted accounting principles.

- The Fed in October, 2008, made substantial purchases of preferred stock of approximately $250 billion issued by the nine (9) largest national banks as well as many regional banks in an effort to strengthen the capital position of the entire US commercial banking system.

- The Authority sold a $20 million bond issue in late December, 2007. The Authority utilized a portion of these bond proceeds to originate approximately $10 million in mortgage loans during the first six (6) months of 2008. The Authority redeemed approximately $10 million in bonds in June, 2008 as a result of a federal tax requirement.

- The Authority did not issue any bonds in 2008.

- The Authority issued bonds in October, 2009 to fund a $20 million mortgage lending program. Approximately $10 million of the funds made available were used to originate mortgage loans during 2010. The mortgage interest rate of 5.375% offered on this mortgage lending program became non-competitive as conventional mortgage interest rates fell. As a result approximately $9.68 million of these funds were redeemed in February 2011.

- The Authority sold $25 million in bonds on January 12, 2010 with the Government Sponsored Entities (the "GSE's") which bonds were privately placed with the GSE's (pursuant to special congressional legislation authorizing the GSE's to purchase bonds from local and state housing finance agencies such as the Authority). Initially the GSE Bonds were issued at variable short term interest rates convertible at the option of the Authority.

- The Authority converted the GSE Bonds to a fixed interest rate and locked in a fixed interest rate of 2.32% effective on November 22, 2011.

- The Authority did not issue bonds in 2012, 2013 or 2014.

- In 2014, the Authority completed its mortgage lending program (the "GSE Mortgage Lending Program") utilizing the GSE bond proceeds.

- The mortgage loan rates on the GSE Mortgage Lending Program ranged from 3.75% to 4.75% available to first-time homebuyers and included down payment and closing cost assistance. This assistance was in the form of a soft second mortgage forgivable over a five (5) year period which second mortgage loan has no monthly principal or interest payments required.

FINANCIAL HIGHLIGHTS

2014 Mortgage Loan Principal Paydowns

- As conventional market mortgage loan interest rates continue to rise the amount of early paydowns declined resulting in $10.404 million in mortgage loan paydowns in 2014 as compared with $16.710 million in 2013. (See chart below)

Year Ended December 31	Total Mortgage Payoffs (million)	New Mortgage Loan Originations (million)	Net Mortgage Related Assets Increase or Decrease (million)
2002	$ 57.784	$ 18.878	$ (38.906)
2003	74.230	12.463	(61.767)
2004	53.985	22.636	(31.349)
2005	40.069	26.826	(13.243)
2006	25.679	38.946	13.267
2007	24.097	45.749	21.652
2008	21.565	15.192	(6.373)
2009	26.783	3.368	(23.415)
2010	28.716	11.140	(17.576)
2011	19.149	19.301	0.152
2012	20.340	23.270	2.930
2013	16.710	19.851	3.141
2014	10.404	3.305	(7.099)
Totals	$ 419.511	$ 260.925	$ (158.586)

Prepayments of mortgage loans whether from whole mortgage loans or from GNMA, FNMA or FHLMC mortgage backed securities ("MBS") (which MBS serve as collateral for the Authority's bonds) are required to be used to retire the same approximate amount of Authority's bonds prior to their respective stated maturities. This number reflects loans paid in full prior to maturity and regular monthly principal paydowns.

2014 New Mortgage Loan Originations

- The Authority originated $3.305 million of new mortgage loans during 2014 as compared with $19.851 million in 2013 and $23.270 million in 2012 all in connection with the GSE Mortgage Lending Program initiated in 2012. The level of mortgage loan origination activity in 2014 resulted in a net decrease of the Authority's net mortgage related assets by $7.099 million as compared with a $3.141 million net increase in 2013. (See above chart for the history of new mortgage loan originations for the last thirteen (13) year period.)

2014 Adjusted Net Position

- The Authority's assets exceeded its liabilities at the close of 2014 by $40.452 million, which represents a $512,000 increase from the 2013 amount of $39.940 million.

- For the year ended December 31, 2014, the Authority had $1.754 million in unrealized gains in the Net Increase (Decrease) in the Fair Market Value of Investments.

- Without giving effect to the adjustment for the cumulative unrealized gains in the Net Increase (Decrease) in the Fair Value of Investments, the Authority's assets exceeded its liabilities by $38.698 million in 2014 which represents a decrease of $6.052 million from the 2013 adjusted amount of $44.750 million.

2014 Adjusted Operating Revenues

- The Authority's adjusted revenues of $5.037 million in 2014 (exclusive of the $1.754 million Net Increase in the Fair Value of Investments) decreased by $1.216 million as compared to adjusted revenues of $6.253 million generated in 2013 (exclusive of the Net Decrease in the Fair Value of Investments of $4.810 million and realized losses of $673,000).

- The Authority generated income earned on mortgage loans receivable/mortgage backed securities of $4.252 million in 2014 as compared with $5.280 million and a $673,000 realized loss on the sale of mortgage backed securities for the year ended 2013 - a decrease of $1.028 million.

- The Authority realized a $122,000 decrease in income earned on other investments from $687,000 in 2013 to $565,000 in 2014.

- The Authority's Fee Income in 2014 increased by $24,000 in 2014 to $189,000 from $165,000 in 2013.

- The Authority has a decrease in Other Income of $90,000 from $121,000 in 2013 to $31,000 in 2014.

2014 Operating Expenses

- The Authority's 2014 Total Operating Expenses of $6.279 million decreased by $2.826 million from 2013 operating expenses of $9.105 million.

- There was a decrease in the amortization of DAP/MLAP of $168,000 in 2014 as compared to 2013.

- There was a decrease of $1.765 million in Operating Expenses in 2014 as compared to 2013, almost entirely attributable to a decrease of grant payments paid by the Authority in 2014 of $569,000 as compared with $2.290 million in 2013 – a decrease of $1.721 million.

2014 Adjusted Net Operating Income

- The Authority experienced a much smaller net operating loss of $292,000 in 2014 compared with a $1.734 million net operating loss in 2013 (excluding the realized and unrealized gains or losses in the Net Increase (Decrease) in the Fair Value of Investments for 2014 and 2013 and adjusting for the non-cash expense item category of the amortization of down-payment assistance program and the Authority assistance program costs) primarily as a result of the decrease of $1.765 million in operating expense in 2014 as compared to 2013.

2014 Unrestricted Fund Net Position

- As of the year ended December 31, 2014, the Authority had an adjusted unrestricted net position of $24.311 million (after adjusting for the Net Increase in the Fair Value of Investments of $312,000) as compared with adjusted unrestricted net position of $27.454 million as of December 31, 2013 (after adjusting for the Net Decrease in the Fair Value of Investments of $2.813 million) representing a decrease of $3.143 million in 2014 and compared with the year ended December 31, 2013.

Authority's Bond Credit Ratings

- The Authority has a "Aaa" rating from Moody's Investor Service ("Moody's") on substantially all of its separately secured series of bonds with the exception of Series 2002A-1 and A-2, 2007B, 2009A-1, A-2 and A-3 Bonds which are rated Aa1on the Series 2002A-1 and A-2 (reaffirmed October 17, 2014) and 2007B Bonds and Baa1 on the 2009A-1, A-2 and A-3 Bonds. These series of Bonds listed above are all rated lower than Aaa due solely to the downgrade of the Moody's ratings of various financial institutions respective guaranteed investment agreement providers with which the Authority invests its monthly receipts of mortgage loan principal and interest payments from its mortgage backed securities which serve as collateral for the Authority's Bonds.

- The 2009 GSE Bonds are rated Aa+ by Standard and Poor's Corporation.

- In addition in May 2002, the Authority applied for an issuer rating from Moody's Investor Services ("Moody's"). Moody's awarded the Authority an 'A3' issuer general obligation rating which is the current rating. The Authority issued a series of subordinate bonds in the principal amount of $2 million as a part of the Series 2009A Bonds on October 27, 2009 secured by the Authority's general obligation pledge of the Authority's unrestricted assets.

- Moody's reaffirmed the Authority's 'A3' issuer general obligation rating on November 13, 2014 (which "A3" rating remains the current credit rating) as previously mentioned Moody's included as a part of its rating report certain operating and debt ratios in its rating report.

OVERVIEW OF THE FINANCIAL STATEMENTS

These basic financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements) and the supplemental information.

Basic Financial Statements

The basic financial statements include information on a combined basis for the Authority as a whole, in a format designed to make the statements easier for the reader to understand. The statements include the balance sheets; the statements of revenues, expenses, and changes in net position; and the statements of cash flows.

The balance sheets (pages 13 & 14) present the assets and liabilities separately. The difference between total assets and total liabilities is net position and may provide a useful indicator of whether the financial position of the Authority is improving or deteriorating on an adjusted basis.

The statements of revenues, expenses, and changes in net position (pages 15 & 16) present information showing how the Authority's net position changed as a result of the current year's operations. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

The statements of cash flows (pages 17 - 20) present information showing how the Authority's cash changed as a result of the current year's operations. The combining cash flow statements are prepared using the direct method and include the reconciliation of net income (loss) to net cash provided by (used in) operating activities (indirect method) as required by Statement 34 of the Governmental Accounting Standards Board.

*1 'Restricted net assets' represent those net assets that are restricted and as a result are not available for general use due to the terms of the various bond trust indentures under which certain specified assets are held and pledged as security for the individual bonds of the Authority constituting its mortgage lending programs.

*2 'Unrestricted net assets' are those assets for which there is not a specific limitation pledge of any of the unrestricted net assets to a specific bond issue of the Authority.

Authority Debt

- The Authority had $74.735 million in mortgage revenue bonds on December 31, 2014 as compared to $91.149 million in mortgage revenue bonds and $17.955 million line of credit with the Federal Home Loan Bank of Dallas outstanding as of December 31, 2013, as shown in the table below:

OUTSTANDING AUTHORITY DEBT AS OF DECEMBER 31, 2014 AND 2013

- Mortgage Revenue Bonded Debt outstanding decreased by $16.414 million as of December 31, 2014 as compared with December 31, 2013.

- The Authority had an outstanding line of credit as of December 31, 2013 of $17.955 million with the Federal Home Loan Bank of Dallas. This Line of Credit was paid in full on July 22, 2014.

Accounts Payable and Accrued Interest Payable

The Authority had accounts payable, accrued liabilities and accrued interest payable of $951,000 outstanding on December 31, 2013 compared with $755,000 (of which $685,000 is accrued interest payable on the bonds) for December 31, 2014 - a decrease of $196,000.

ECONOMIC FACTORS AND THE AUTHORITY'S 2015 BUDGET

The Authority's Board of Trustees considered the following factors and indicators when the Authority adopted its 2015 Operating Budget. These factors and indicators include:

- The potential for the continuation of relatively low but rising conventional mortgage loan interest rates in 2015 will cause early mortgage loans payoffs (as a result of mortgage loan refinancings) to slow down.

- The Authority launched a Market Rate mortgage loan program with down payment and closing cost assistance with Raymond James as hedging agent and US Bank as Master Servicer. Interest rates are published daily by 9:00am CST. The Authority conducted the first pooling of loans in January 2015.

- The Authority's Board of Trustees adopted the Strategic Plan in November, 2013 that called for an amendment to the original Trust Indenture. The Authority received approval from the Parish Council in October 2011 and unanimous approval from the Louisiana State Bond Commission in September 2014 to amend the original Trust Indenture. The amended Trust Indenture authorized the name change to the Capital Area Finance Authority, authorized financing of all public purposes in the Public Trust Act of 1974 and expanded the geographical region to include East Baton Rouge, West Baton Rouge, Pointe Coupee, West Feliciana, East Feliciana, St. Helena, Livingston, Ascension and Iberville Parishes.

- The Authority hired Victoria Theriot on January 1, 2015 as Executive Vice President. She has served as Executive Vice President of Financial Consulting Services, Inc., the Authority's Program Administrator, since June 1, 1979.

- The Authority hired Stephanie Wade on January 1, 2015 as Bookkeeper. She has served as Bookkeeper of Financial Consulting Services, Inc., the Authority's Program Administrator, since August of 1997.

- The Authority hired Michael L. Airhart on June 1, 2014 as Executive Director. He served as President of Louisiana Mortgage Lenders, LLC since 1997.

CONTACTING THE CAPITAL AREA FINANCE AUTHORITY

This Financial Report, including the Management's Discussion and Analysis (the "MD&A"), for the period ended December 31, 2014 is designed to provide all citizens of the Capital Area Parishes, as well as the Authority's customers and creditors (i.e. bondholders) with a general overview of the Capital Area Finance Authority's finances and to show the Authority's accountability for the money it receives from its bond issue proceeds and other sources. The sources include income earned on mortgage loan receivables/mortgage backed securities, income earned on other investments and Authority/Issuer fee income.

Financial Consulting Services Inc. ("FCSI") served as the Authority's Program Administrator for the entire year ended December 31, 2014. Program administrative services as of January 1, 2015 are being provided directly by Authority personnel. Effective January 1, 2015 FCSI was engaged by the Authority as its program consultant.

The Authority consulted with FCSI, its former Program Administrator for the period ended December 31, 2014 and its current program consultant, in connection with the preparation of this MD&A.

(1) Summary of Significant Accounting Policies -

(A) Organization of Authority

The Capital Area Finance Authority (formerly known as East Baton Rouge Mortgage Finance Authority (the "Authority") was created through a Trust Indenture dated August 14, 1974, pursuant to provisions of the Louisiana Revised Statutes of 1950, as amended. The initial legislation and subsequent amendments grant the Authority the power to obtain funds and to use the proceeds to promote the financing and development of any essential program conducted in the public interest within the boundaries of East Baton Rouge Parish, Louisiana.

The Authority's operations consist primarily of single family mortgage purchase bond programs under which the Authority promotes residential home ownership through the acquisition of mortgage loans secured by first mortgage liens on single family residential housing. Under the 1993 A&B, 1997 D, 1998 B, 1998 D, 2002 A, 2003 A, 2004 A, 2005 A, 2006 A, 2007 A, 2007 B, and 2009 A Programs, these loans are pooled and sold to the Government National Mortgage Association (GNMA), the Federal National Mortgage Association (FNMA) or the Federal Home Loan Mortgage Corporation (FHLMC) in exchange for mortgage-backed securities (MBS) on which GNMA, FNMA, or FHLMC guarantees payment of principal and interest when due. These securities are collateralized by the related loans. The Authority also issues short-term convertible program notes, which are securitized by government agency securities during the interim in preparation of long-term issues. The funds for the Authority's programs were obtained through the issuance of bonds in the following face value amounts (in thousands):

The bonds issued by the Authority are general obligations of the Authority and are not obligations of the State of Louisiana or any other political subdivision thereof.

The Authority's Board of Trustees is empowered under the bond trust indentures and the bond program agreements to contract with outside parties to conduct the day-to-day operations of the Authority and the programs it initiates. The Authority employs Financial Consulting Services, Inc. as its Program Administrator to provide administrative staff support for the Board of Trustees and its committees, general office administration for the Authority and program administration and supervision for each of its mortgage purchase bond programs. Under each of its single family mortgage purchase bond programs, the Authority utilizes area financial institutions to originate and service the mortgage loans acquired. In addition, a bank has been designated as the Trustee of the separate bond programs and has the fiduciary responsibility for the custody and investment of funds.

The Program Administrator was responsible for the development of each new bond issue and loan program. Once the bond issue is closed, the Program Administrator supervises the origination of the mortgage loans, underwrites (reviews and approves) the new mortgage loans for purchase under each program, maintains computerized current records on all loans, and supervises the servicing and trustee functions for each program.

(B) **Basis of Presentation - Fund Accounting -** The proprietary funds are used to account for the Authority's ongoing operations and activities which are similar to those in the private sector. Proprietary funds are accounted for using a flow of economic resource measurement focus under which all assets and all liabilities associated with the operation of these funds are included in the balance sheet. The operating statements present increases (revenues) and decreases (expenses) in total net position. The Authority follows the guidance included in GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance*, contained in pre-November 1989 FASB and AICPA pronouncements.

Basis of Accounting - The Authority prepares financial statements in accordance with accounting principles generally accepted in the United States of America. Such principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Basis of Reporting - The Authority follows GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, and the required portions of GASB Statements No. 37 and 38, which modified the disclosure requirements of GASB No. 34. GASB No. 34 establishes standards for external financial reporting for all state and local governmental entities. It requires the classification of net position in three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

- *Net Investment in Capital Assets* – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

- *Restricted* – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

- *Unrestricted* – This component of net position consists of net position that do not meet the definition of "restricted" or "net investment in capital assets."

The net position of the Unrestricted Fund are net investment in capital assets or unrestricted. The net position of all other programs are substantially restricted under the terms of the various bond indentures.

Combined Totals - The combined financial statements include the totals of the similar accounts of each of the Authority's bond programs and the Authority's Unrestricted Fund. Because the assets of the bond programs are restricted by the related bond resolutions and indentures, the totaling of the accounts, including the assets therein, is for convenience only and does not indicate that the combined assets are available in any manner other than that provided for in the resolutions and indentures relating to the separate programs.

GASB Statement No. 31 - The GASB issued Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. The statement requires that most investments be recorded at fair value. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties and has generally been based upon quoted values. This method of accounting causes fluctuations in reported investment values based on fluctuations in the investment market.

Fluctuations in the fair value of investments are recorded as income or expense in the statements of revenues, expenses, and changes in net position, and the amount is disclosed in the statements of cash flows as unrealized gain (loss) on investments. The Authority applies the provisions of the Statement to U.S. Government securities and mortgage-backed securities. The sale of these investments by the Authority is generally subject to certain restrictions as described in the individual bond indentures.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Commitment Fees - Nonrefundable commitment fees received subsequent to January 1, 1988 through December 31, 2013 from originating financial institutions and certain direct loan origination costs were deferred and amortized over the estimated lives of the related assets as a yield adjustment. As of December 31, 2013, management changed their estimate of these assets and the remaining unamortized assets were expensed as of December 31, 2013 due to the change in estimate.

Reclassification of Prior Year Amounts - Certain prior year balances have been reclassified to conform to the current year presentation.

Statement of Cash Flows - For purposes of the statement of cash flows, the Authority considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Summary Financial Information for 2013 - The financial statements include certain prior year summarized information in total. Such information does not include sufficient details to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Authority's financial statements for the year ended December 31, 2013 from which the summarized information was derived.

(2) Cash and Investments -

In compliance with State laws, those deposits not covered by depository insurance are secured by bank owned securities specifically pledged to the Authority and held in joint custody by an independent custodian bank. Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. As a result of the pledging of additional securities by custodial banks in the Authority's name, the Authority does not have any custodial credit risk at December 31, 2014.

The Authority recognizes all purchases of investments with a maturity of three months or less, except for short term repurchases agreements, as cash equivalents.

Credit Risk - Statutes authorize the Authority to invest in the following types of investment securities;

(1) Fully-collateralized certificates of deposit issued by qualified commercial banks, federal credit unions and savings and loan associations located within the State of Louisiana.

(2) Direct obligations of the U.S. Government, including such instruments as treasury bills, treasury notes and treasury bonds and obligations of U.S. Government agencies that are deliverable on the Federal Reserve Systems.

(3) Repurchase agreements in government securities in (2) above made with the 36 primary dealers that report to and are regulated by the Federal Reserve Bank of New York.

(4) Guaranteed Investment Contracts with companies with good credit ratings.

The Authority has no investment policy that would further limit its investment choices beyond the restrictions imposed by the State of Louisiana. At December 31, 2014, the Authority's investments in MBS with GNMA, FNMA, and FHLMC are rated AAA by taking the average of the Moody's Investors Services, Standard and Poor, and Fitch ratings. The Authority has no limit on the amount it may invest in any one issuer so long as the State of Louisiana's restrictions are followed.

The Authority has a portion of its assets as of December 31, 2014, invested in GNMA, FNMA, and FHLMC obligations including MBS totaling approximately $89.608 million. GNMA is an instrumentality of the Federal government. Its obligations carry the full faith and credit of the United States of America. Neither FNMA nor FHLMC are instrumentalities of the federal government and as such do not carry the full faith and credit of the United States of America. FNMA is a federally chartered and stockholder-owned corporation. FNMA was originally established in 1938 as a United States government agency and was transformed into a stockholder-owned and privately managed corporation in 1968. FHLMC is a stockholder-owned government sponsored corporation created in 1970. The Authority's total investment in FNMA and FHLMC obligations (including MBS) as of December 31, 2014, was approximately $20.474 million. Any potential downgrade in the credit rating of either FNMA and/or FHLMC could have an adverse impact on the market value of the obligations of FNMA and/or FHLMC (including MBS) owned by the Authority. In connection with the approximately $20.474 million of FNMA and FHLMC MBS, which the Authority has pledged to bondholders pursuant to separate trust indentures authorizing various bond issues, the asset portion of these various balance sheets could be adversely affected while the liabilities are not since the liabilities are not marked to market. However, any financial risk to the Authority is entirely mitigated since the bond indentures authorizing the Authority's bonds do not provide any acceleration of the Authority's bonded debt as a result of potential downgrade of either FNMA and/or FHLMC credit rating.

For the year ended December 31, 2014, the Authority recognized $1.754 million in net unrealized gains in the Net Increase (Decrease) in the Fair Value of Investments.

Interest Rate Risk - As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's Interest Rate Risk Program generally restricts Investments to those whose terms are no longer than the terms of the related bonds.

Authority's programs have investments in guaranteed investment contracts, mortgage backed securities and other investments which have maturities which approximate the terms of the related debt. Therefore the Authority balances its interest rate risk against the related debt. By using this method, the Authority believes that it will mitigate its interest rate risk.

The Authority's unrestricted fund has investments in U.S. Government and agency securities with a weighted average maturity of 5 years and in MBS with a weighted average maturity of approximately 15 years.

Custodial Credit Risk - Investments

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2014, the Authority is not exposed to custodial credit risk with respect to its investments because all investments are either insured by federal depository insurance, registered in the name of the Authority, or collateralized by other investments pledged in the name of the Authority.

In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it.

To mitigate this risk, state law requires for these deposits (of the resulting bank balances) to be secured by federal deposit insurance or the pledge of securities by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. The pledged securities are deemed by Louisiana State Law to be under the control and possession and in the name of the Authority regardless of its designation by the financial institution in which it is deposited. As of December 31, 2014, none of the Authorities bank balance of $15,362,000 was exposed to custodial credit risk.

(3) Mortgage Loans Receivable and Mortgage-Backed Securities -

Mortgage Loans Receivable - Mortgage notes acquired by the Authority from participating mortgage lenders and held by the following bond programs have original scheduled maturities of thirty years and are secured by first mortgages on the related real property. The mortgages have stated interest rates as follows:

2009 A Program	6.00%
Unrestricted Fund	8.40% - 10.95%

In addition to the customary insurance required of the mortgagors, the mortgage loans are insured under special hazard policies, and supplemental mortgage trust policies for mortgagor defaults. Premiums for these policies are paid through the applicable Program's funds.

All of the single family mortgage loans are originated by participating mortgage lenders through conventional, FHA or VA programs sponsored by the mortgage lenders and are sold to the Authority without recourse. The participating mortgage lenders service the mortgage loans for the Authority and receive monthly compensation based upon the unpaid principal balance of the mortgage loans serviced.

Mortgage-Backed Securities - As discussed in Note 1, the mortgage loans originated under certain Authority programs are pooled and sold to GNMA, FNMA, or FHLMC in exchange for mortgage-backed securities on which GNMA, FNMA, or FHLMC guarantees payment of principal and interest when due. These securities bear the following terms and interest rates:

	Term	Pass Through Interest Rate
1997 D Program	30 years	5.875% - 6.625%
1998 B Program	30 years	5.125% - 8.35%
1998 D Program	30 years	4.25% - 6.125%
2002 A Program (1992 A & B)	30 years	7.00%
2003 A Program	30 years	4.76% - 5.25%

2004 A Program	30 years	4.90% - 5.20%
2005 A Program	30 years	4.875%
2006 A Program	30 years	5.375%
2007 A Program	30 years	3.60% - 5.40%
2007 B Program	30 years	3.30% - 5.45%
2009 A Program	30 years	4.875% - 7.10%
2009 GSE Program	30 years	3.75% - 4.75%
Unrestricted Fund	30 years	5.625% - 7.755%

The change to the mortgage-backed securities type of program was prompted by various factors including the unavailability of mortgage pool and related insurance coverage required for conventional mortgage loan programs. The guarantees by GNMA, FNMA, and/or FHLMC, which the Authority receives under this type of program, replaces the pool and related insurance coverage of the previous programs. Development of the new programs, origination of the mortgage loans and supervision of the servicing of the mortgage loans for compliance with federal mortgage bond tax laws by the Authority remain essentially the same.

(4) Changes in Capital Assets

Capital asset activity for the year ended December 31, 2014 (in thousands):

Depreciation is being calculated using the straight-line method over the estimated useful life of capital assets. Depreciation expense was $45,791 for the year ended December 31, 2014.

(5) Note Receivable -

In accordance with a Cooperative Endeavor Agreement entered into by and between the Authority and a component unit of the City of Baton Rouge – East Baton Rouge Parish dated as of and effective September 1, 2011, and with the passage of a dedicated tax to support the component unit, the $500 thousand grant awarded in the Cooperative Endeavor Agreement was converted into a loan in 2012.

The specific terms of the loan as generally described in the Cooperative Endeavor Agreement includes five (5) annual payments of $100 thousand plus accrued interest beginning January 31, 2013. The interest rate is adjustable at WSJ Prime Rate (Current Rate is 3.25%) as of each January 31st for the years set forth in the Schedule of Payments.

Schedule of Payments (in thousands):

Payment Date	Amount
1/31/2015	$ 100
1/31/2016	100
1/31/2017	100
	$ 300

(6) Bonds and Lines of Credit Payable -

The net proceeds obtained from the bond issues are used to establish funds authorized by the Bond Trust Indentures to purchase eligible mortgage loans, secured by first mortgage liens on single family owner-occupied residences, or to purchase GNMA, FNMA, and/or FHLMC mortgage-backed securities from qualified mortgage lenders accepted for participation in the programs by the Authority.

The Bond Trust Indentures provide that bond principal and interest are secured by pledges of all mortgage loans and mortgage-backed securities acquired, all revenues and collections with respect to such loans and securities and all funds established by the Indenture, together with all of the proceeds generated therefrom.

Outstanding bonds and lines of credit payable consist of the following at December 31, 2014 and 2013 (in thousands):

Total Bonds and Lines of Credit Payable - Net at December 31, 2013	$ 109,104

*The line of credit has no stated maximum draw as long as the Authority is depositing collateral as they are requesting a draw.

The bonds are subject to early redemption provisions as described in the Bond Trust Indentures at redemption prices equal to the principal amounts of the bonds redeemed plus accrued interest to the applicable call dates.

A summary of changes in debt during the years ended December 31, 2014 and 2013 (in thousands), is as follows:

	2014	2013
Balance - January 1	$ 109,104	$ 122,499
Proceeds from Line of Credit	21,175	17,955
Repayments and Maturities	(55,544)	(31,350)
Balance - December 31	$ 74,735	$ 109,104

Following is a schedule of the future principal and interest payments of the Authority's debt based on the stated maturity dates of the debt. Actual repayment dates will likely occur earlier since substantially all of the debt is subject to early redemption provisions. These early redemption provisions relate to payments received on the mortgage-backed securities and mortgage loans receivable and certain other factors. These early redemptions will also reduce future interest payments.

Scheduled principal payments for the years subsequent to December 31, 2014, are as follows (in thousands):

(7) Operating Expenses -

The members of the Authority's Board of Trustees receive a per diem fee for all committee and board meetings attended. For the years ended December 31, 2014 and 2013, payments to the Authority's Board members were as follows:

Board Member	2014	2013
Cheri Ausberry	$ 4,600	$ 4,400
Dennis Blunt	2,400	3,600
Norman Chenevert	4,000	4,400

Jake Netterville	4,000	3,800
Valerie Shexnayder	3,800	5,600
Total	$ 37,800	$ 40,800

These amounts are paid through the Unrestricted Fund and included in operating expenses in the accompanying statements of revenues, expenses, and changes in net position.

(8) Authority Fees -

Beginning with the 1992 Programs, the Authority instituted an authority fee which is paid to the Unrestricted Fund by the individual programs. The Unrestricted Fund recognizes authority fee income related to the fees paid by the individual programs. The fee income received by the Unrestricted Fund is currently being used to provide the upfront funds required of the Authority's annual programs in order to finance such things as costs of issuance of bonds, subsidizing lower income mortgagor's with waivers of discount points and providing down payment assistance to mortgagors. The actual fees paid by each program vary in accordance with the provisions of the respective program's indenture agreement. Authority fee income recognized by the Unrestricted Fund and Authority fee expense recognized by the individual programs are disclosed separately in the accompanying statements of revenues, expenses, and changes in net position.

(9) Downpayment Assistance and Authority Assistance Programs -

During fiscal year 1996, the Authority began the Downpaynent Assistance Program (DAP) which provides funds to borrowers that meet certain criteria in order to assist borrowers with closing costs or down payments. The amount of funds is based on a percentage of the loan amount (generally 3% to 4%). The interest rate charged on these loans is greater than the interest rate on loans that do not utilize this program. Also during 1996, the Authority initiated the Authority Assistance Program (AAP) which waives the discount points on loans made to households whose income is under $27,500.

Costs related to these programs are capitalized and are being amortized over the lives of the related assets as yield adjustments based upon the average lives of the underlying assets. The remaining unamortized balances are classified on the accompanying balance sheets in the same caption as the related assets. A summary of the activity with respect to these programs during the years ended December 31, 2014 and 2013, is as follows (in thousands):

In addition to the health insurance, the board of directors also approved a Simple IRA plan for all employees which will provide matching of employee contributions of up to 3% of the employee's annual salary and maximum employee contribution of $12,000 per employee.

(14) Subsequent Event - Investment in the Palms at Juban Lakes, LLC -

On January 30, 2015, the Capital Area Finance Authority (formerly known as the East Baton Rouge Parish Mortgage Finance Authority – EBRMFA) entered into an agreement to purchase 23.8 Units of membership interest of The Palms at Juban Lakes, LLC at a purchase price of $42,000 per unit, with a total investment of $999,600. The Palms at Juban Lakes, LLC is a multi-family market rate community with a total of 180 units located in Denham Springs, Louisiana. The alternative investment targets Goal 1.1 in the 2014-2019 Strategic Plan, research, evaluate and adopt additional revenue-generating services that fit within the Authority's mission, adopted in November 2013. The investment was approved by the New Initiatives Committee during 2014 and the Board of Trustees in December 2014.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCEWITH *GOVERNMENT AUDITING STANDARDS*

To the Board and Trustees of
Capital Area Finance Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities which include each of the individual programs, the unrestricted fund, and the 2014 combined of the Capital Area Finance Authority (the Authority) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated June 10, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain matters that we reported to management of Capital Area Finance Authority in a separate letter dated June 10, 2015.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose; however, under Louisiana Revised Statue 24:513, this report is distributed by the Legislative Auditor as a public document.

Respectfully submitted,
